Karaoke Fun with Mummy

Ms. Devi (Nursery Educator)

If children have a successful music experience they can bond emotionally and intellectually with others in a creative learning environment. Mother and child share a special bond unlike any other, and most children seem to thoroughly enjoy participating in musical activities. This week Nursery class celebrated a special

day called "Karaoke Fun with Mummy". I played karaoke of a few rhymes and mummies and children were excited to identify the rhyme. It's astonishing that with very little effort, I brought joy to the children just by giving them the option to do something with music.
