As seasons change...

Ms. Shahana (Nursery Educator)

Our Nursery students had a great time learning about the monsoon and winter seasons and experimenting with the melting magic of ice.

They made the number one shape out of the dough with their tiny hands. They also created a lovely season's art. The week ended happily with packing for a trip activity, kids started gathered items in their bags, and also explained them to their friends. Take a look at their learning experiences.

Dinosaurs!

Ms. Pallavi Patel (Kindergarten Coordinator)

Our Senior KG students are exploring the Animal Kingdom, and finally, they came to know about the extinct animals, including the largest reptile- The Dinosaur. It is an all-time favorite topic for children, and they were thrilled to see different types of dinosaur pictures and realized that they are no more through a story. After that, the children got a chance to do a play dough activity where they made their favorite dinosaurs using different colors and textures. The activity turned into a fun learning experience and provided an opportunity to build fine motor development, coordination, and concentration.

Word Art

Ms. Malar (Grade 2 Educator)

Students of grade 2 were at their creative best when they were asked to explain a verb in the form of a drawing. The drawing should convey the actual meaning of the verb. For example, the 'r' & 'n' in the verb RUN had legs. The verb CLIMB was written in ascending order as in a staircase. This activity ensured that the learners had understood the meaning of verbs And were able to explain them with ease.

Thank you, Doctors!

Ms. Priya Nicholas (Grade 3 B Educator)

Our Grade 3B learners on account of National Doctors' Day, showcased both their writing and creative skills to honor and acknowledge the efforts made by our doctors to society by writing an essay Thanking their effortless service.

A Doctor leads you towards wellness

Ms. Portia Guha (Grade 4 Class teacher)

Doctors' Day is observed to honour the profession of doctors and their contribution to the healthcare industry. We at Billabong celebrated National Doctor's Day with enthusiasm. Students of grade 4 participated in an online interactive session and shared their thoughts about Doctor's Day. They indulged in various activities such as essay writing, making doodles to "Thank Doctors". These contributions were a salute to the doctors working in the forefront amid the pandemic.

To mark Doctor's Day, students expressed their gratitude towards doctors for their selfless services, especially during the current Covid pandemic. Students also clicked photos with their essays. They were very happy and excited as they got a chance to participate in a very remarkable event.

Home Garden Tour!!!

Hisham Muhammad (Grade 5 CBSE Student)

It was a very interesting class when Steffi mam taught us about seed germination. Also, ma'am sparked with activity, and it was all about 'Home garden tour'. When Steffi mam told us about the activity, we all were super excited. After a day or two the garden tour started. Each one had the chance to show their garden in front of the whole class. Virtually. Few of my friends had rare plants in their gardens such as a banana tree, jackfruit, and most of all a giant coconut tree in their garden. When everybody talked about their own plant, it kept motivating me to show my garden. The Garden tour with my grade 5 CBSE friends was a memorable one in this virtual learning.

Roots of the martial arts started from South India

Ms.Jalaja Ganesh (Middle School Educator)

Interconnecting the subjects and learning is a fulfilled method of learning. During the Social Science period as a starter activity, martial arts was introduced by inviting our PET Educator Mr.Kalai. Our Principal and Director Ms.Asma ma'am and CAIE Coordinator Ms.Padmapriya Sreeram graced their presence during the session.

The expert talk was about the root of martial art, different styles used in the martial art; 5 exponents of martial shown are the Snake, Monkey, Praying Mantis, Tiger, and Crane followed by a video.

Thoughtful advice was given by Asma ma'am about taking the positive side of martial arts.

The children learned about different styles of Indian martial arts and were able to connect with the well-known Chinese martial arts.

क्या हम प्रदूषण को रोक नहीं सकते

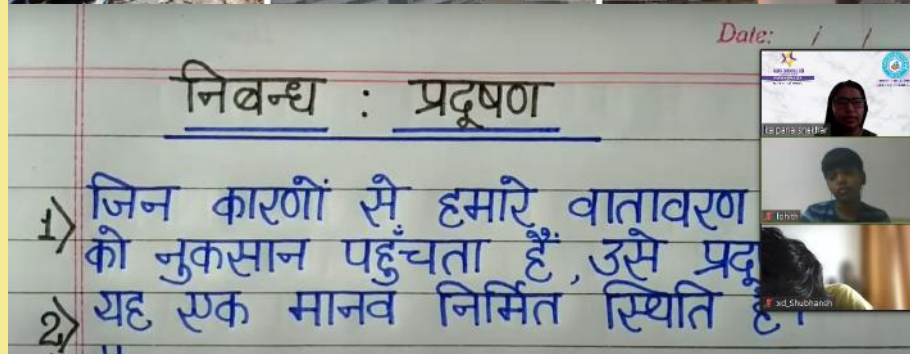

Ms. Kalpana Kumari (Activities Coordinator)

प्रदूषण की समस्या पूरे विश्व के लिए एक चिंता जनक विषय है।

कक्षा 7 के छात्रों ने इस गंभीर विषय पर अपने विचार व्यक्त किए। चित्र को दिखाकर छात्रों को इस विषय पर अपने विचार निबंध के रूप में लिखने के लिए कहा गया। इस कालांश में छात्र प्रदूषण से संबंधित कई शब्दों का प्रयोग वाक्यों में किया।

निबंध लेखन का उद्देश्य था, छात्रों को अपने विचारों को सुनियोजित एवं व्यवस्थित रूप से अपने शब्दों में लिखवाना।

इस विषय पर निबंध लिखने से पहले छात्रों ने कई प्रकार के प्रदूषण एवं इसके समाधान में उनका योगदान पर अपने सहपाठी से चर्चा की। अंत में छात्रों ने अपने विचार वाग्व्युक्ति में लिखा।

Market Economic systems

Ms. Jalaja Ganesh (Middle School Educator)

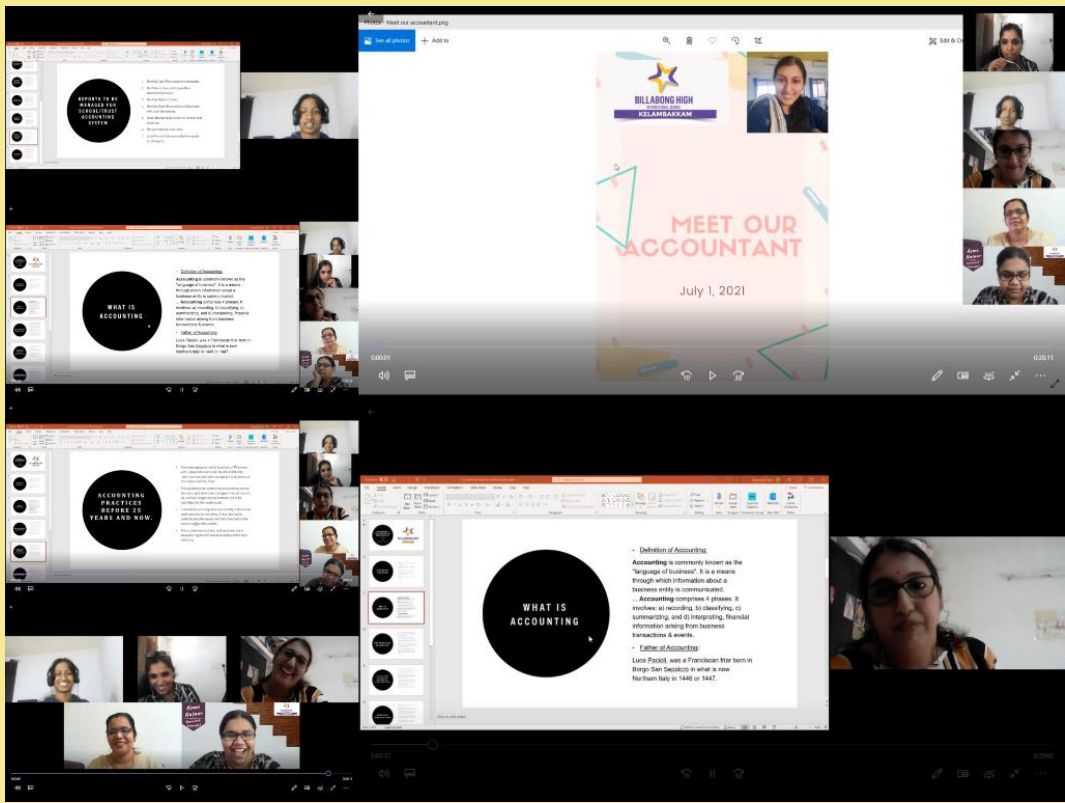

Graphical representation facilitates and improves learning. Graphics make data easy to understand and eliminate language and literacy barriers. It makes the learner understand the content easily. "visuals are more effective than text in human understanding." The learner of grade 9 IG interpreted the demand and supply on the whiteboard in a virtual class.

Insightful Accounts - Expert Talk

Padmapriya Sreeram (CAIE Coordinator)

Our ninth-grade accounting class had a subject matter expert visiting this week. The head of accounts of our school, Ms Bhageerathy presented rich insights into the process of keeping financial accounts. She put things into perspective as she spoke about accounting being the language of business. Her expert talk wowed the attendees with a wealth of knowledge providing invaluable knowledge into current trends and comparing accounting practices over the last 25 years. The seasoned accountant traversed on a variety of topics including the need for Accounting, mastering accounting techniques, reports to be managed for a school and trust accounts. She also spoke about the tools used for accounting now. The mini master class ended with an interactive session with our learner and creating a lasting impression among attendees.

National Statistics Day

Ms. Praveena Prabhakaran (Head of Math Department)

Billabongers celebrated National Statistics Day in recognition of Mahalonobis' invaluable contribution in establishing the National Statistical System by posting "Why do they need Statistics?" in a padlet. This raised awareness about the role of Statistics in socio-economic planning.

Vedanth V Statistics gives us ways to transform data into information, and information into practice. As citizens of an information-based society, we owe it to ourselves to understand statistics, at least at a basic level. Without such understanding, we are under the dictatorship of those who would	Jane The practice or science of collecting and analyzing numerical data in large quantities, especially for the purpose of inferring proportions in a whole from those in a representative sample is called statistics. Creating magic through Art

Ms. D.Shalini (Visual arts Facilitator)

This week the students of grades 1 and 4 had some artistic fun. Read on to know more about what they did-

Grade 1 -

DOCTOR'S DAY ART

Students expressed their gratitude to doctors by composing artwork.

PLASTIC FREE ART

Students composed turtle artwork for creating awareness on the usage of plastics. The tiny peeps expressed their creativity by creating mosaic patterns inside the turtle body by using newspaper. Through this artwork, students conveyed the message 'Don't use plastic'.

Grade 4- SAVE FOREST

Students composed tree art to create awareness on saving trees in the forest.

Save trees

Don't Use Plastics

Student Career Counselling on Doctor's Day

Ms. D.Shalini (Freedom House warden)

On account of doctor's day, BHIS-K Conducted a career counselling session for highlighting prospective careers in the medical field. Dr. Shankari (Dermatologist Chettinadu super specialty hospital) and Dr. Abhilash (Senior consultant general and laparoscopic surgeon at Chettinadu super specialty hospital) were our resource person where Dr.Shankari addressed our gatherings and gave a detailed presentation for our students about careers in the medical field. The students gained valuable insight through this session and enthusiastically participated and had interactions with the doctors.
