My Favourite Community Helper

Ms. Shahana (Nursery Educator)

Our nursery learners had a special day titled My Favorite Community Helper, during which they dressed up as their favourite community worker and demonstrated the tools they use. Take a glance at some of their wonderful moments.

Sea Creatures

Ms. Sivaranjani (Jr. Kg Educator)

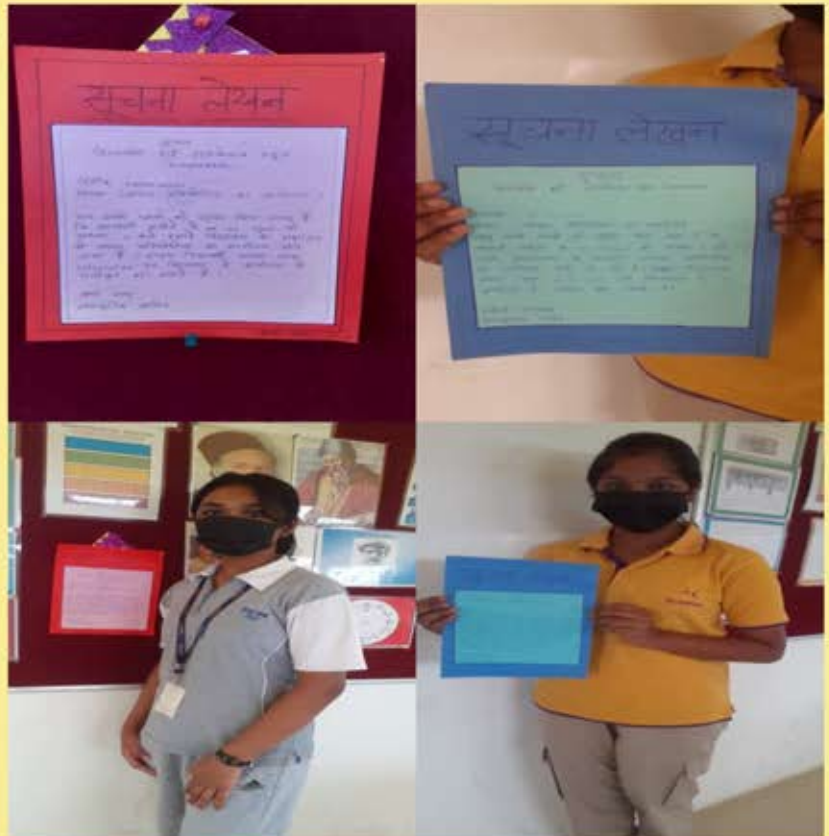

Our Little ones got the opportunity to learn more about it with fun-filled activities. As they learnt different types of sea creatures this week and loved to make a starfish with homemade dough also, they painted the same with their favorite color this activity enhances their creativity, hand and eye coordination & develops their fine motor skills..

कृपया ध्यान दें

तीर्था मधु, कक्षा -10 (Theertha Madhu, Grade 10)

पाठकों ...मैं तीर्थ मधु कक्षा 10 से, मेरे द्वारा सीखे गए सूचना लेखन के विषय में बताती हूँ। हमारे पाठ्यक्रम का एक विषय है "सूचना लेखन", इस विषय को हमने विभिन्न प्रकार के सूचनाओं को लिखकर सीखा। एक सूचना मैंने अपने विद्यालय के सूचना पट पर भी लगाया, जो कि आप चित्र में देख सकते हैं। सूचना लेखन के दौरान मैंने हिंदी के कई नए शब्द सीखे तथा अपनी भाषा ज्ञान एवं शब्द -भण्डार में वृद्धि की। यदि आप को भी हिंदी में सूचना लेखन सीखना है तो मुझसे संपर्क करें। धन्यवाद !

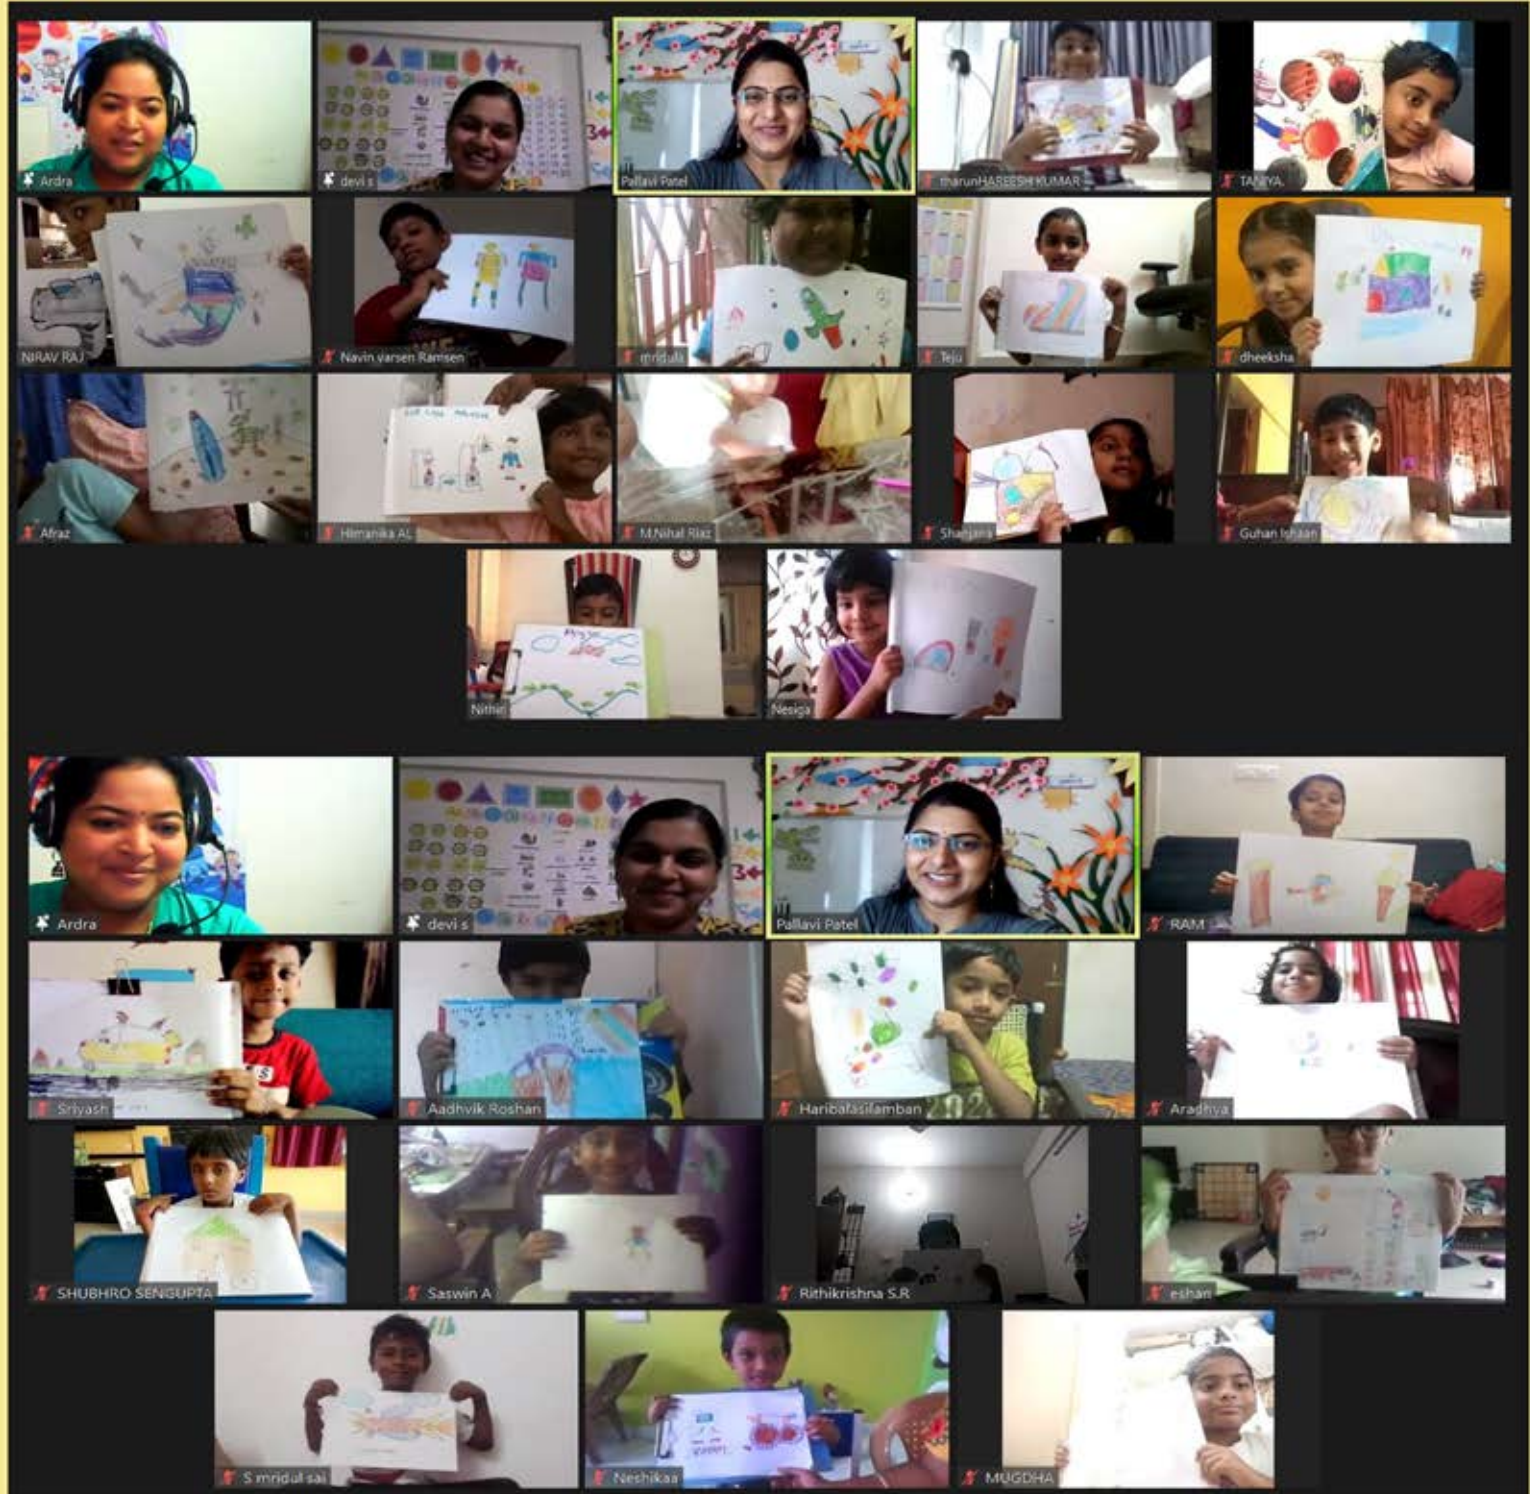

Crazy Creations

Ms Ardra (Sr. Kg Educator)

Senior KG students were exhibiting their crazy ideas of inventions through the artistic methodology. We were thrilled and excited to know their reason behind their invention and what the motivation behind it is. Their creative ideas were mesmerizing and brilliant for us as teachers which made us feel proud. Bringing out their creativity and ideas for different kinds of invention to sort out different problems was amazing. Their inventions had a lot of thought like creating a robotic helper, robotic doctor, Roller house, purifying used water mechanism, Airplanes with more number of seats and so on. Doesn't it sound exciting to know about their inventions and so we were too.

Bringing Learning to Light

Special Coverage: Primary Culminating Event

“Life is a culmination of the past, an awareness of the present, an indication of a future beyond knowledge, the quality that gives a touch of divinity to matter.” ~ Charles Lindberg

A culminating event is when students share the product or result of their investigation, receive feedback, and celebrate their learning. Students are actively involved in the planning of the culmination. Instead of taking a test an educator asks them to recall information, synthesize ideas and build on what they have learned to create something new.

The Primary wing of Billabong High International School, Kelambakkam conducted a four-day culmination event for Grades 1-4 in coordination with Ms. Kritica, Ms. Bahini, Ms. Sankari, Ms. Anam, Ms. Priya Nicholas, Ms. Shaheena, and Ms. Portia. The event was headed, mentored and guided by Ms. Ruksana (Coordinator, Primary Wing). Ample collaboration with all the subject and language teachers was also seen. The event provided a great opportunity for the students to gain a real-world experience in using language skills to get ideas across clearly and also showcase their understanding of various concepts that they have learned in the last four months. The culmination event started on March 1 and continued till March 4, which also marked an end to the virtual academic year (2021-22) for Primary grades. The event was graced by our esteemed Chairperson, Mr. Yasir Nainar, Director and Principal, Ms. Asma Nainar, Academic Advisor, Ms. Shibanti Bhowmik, coordinators, teachers, students and parents. The final culmination hence brought to light a year of the hard work put in by all the teachers, students and parents. Billabong respects and greatly appreciates their generosity and support.

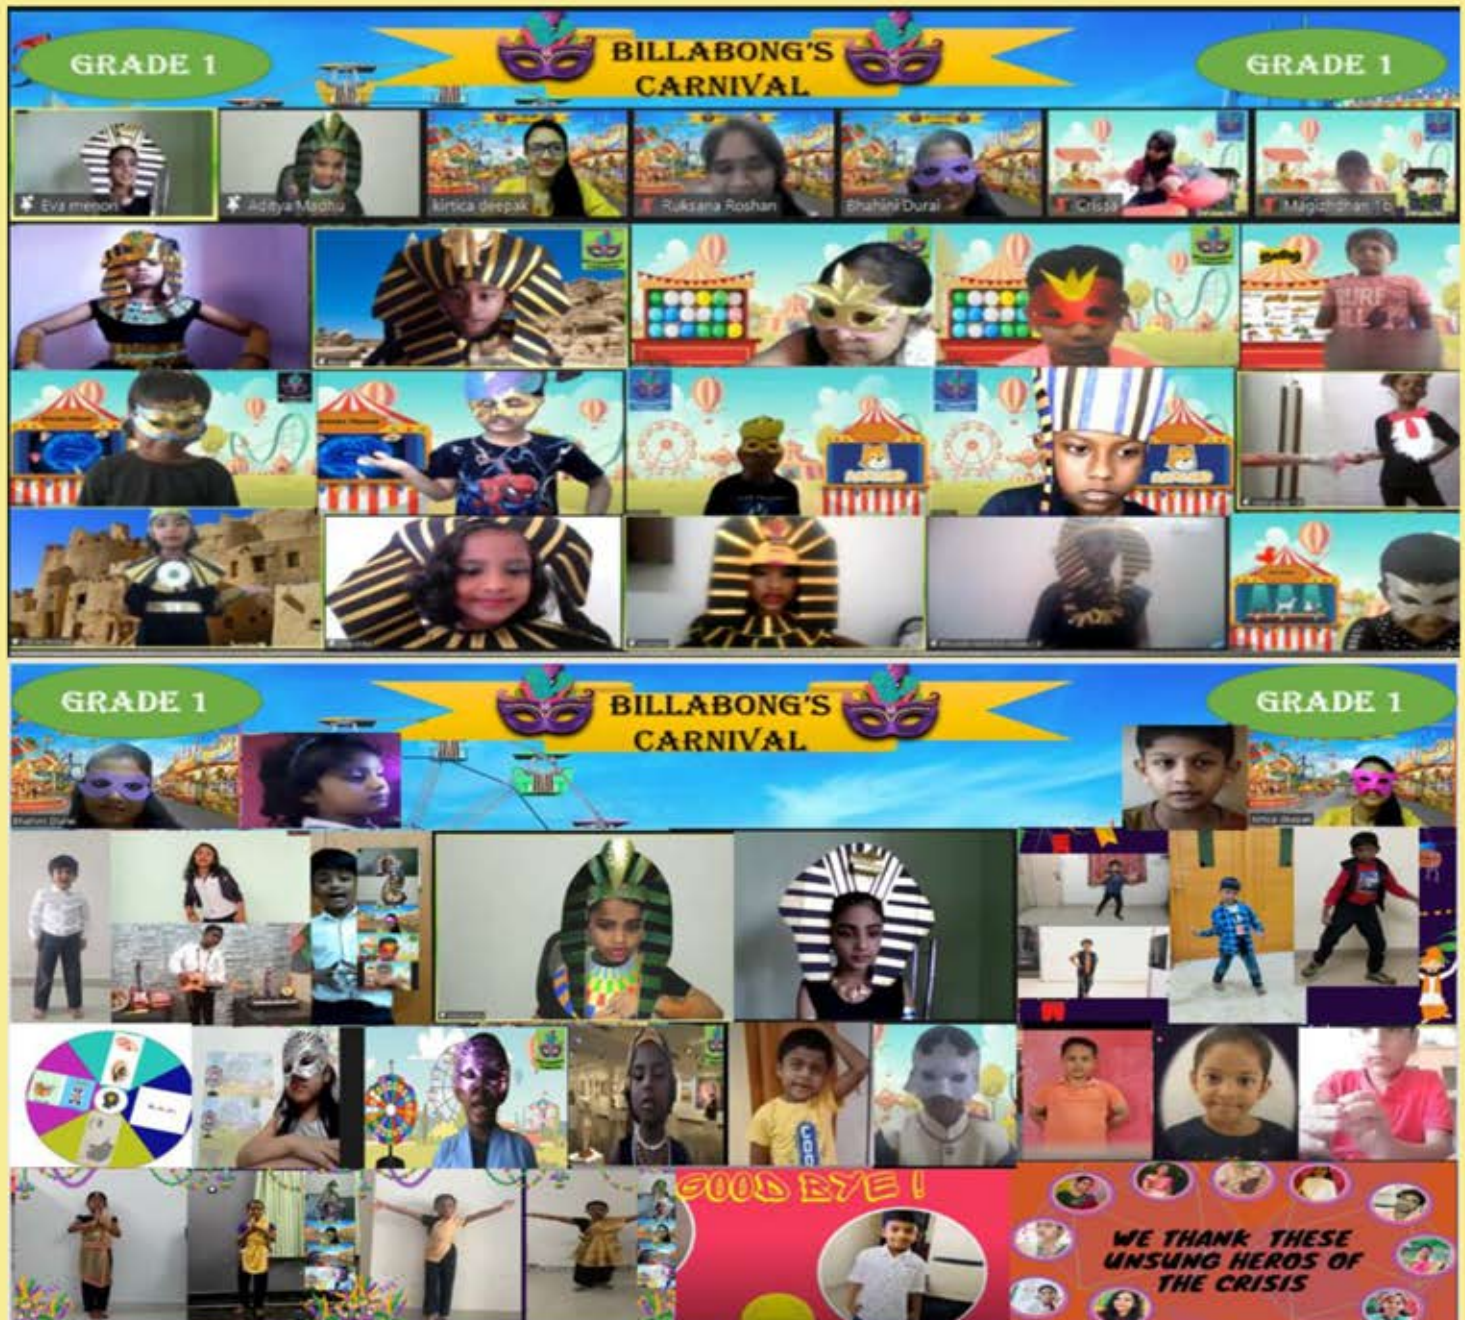

Ms. Neha Ghosh, English Educator, Cultural Head – BHISK

Billabong's Carnival

Grade 1 Culminating Event

A carnival is an important part of the school year. The word 'carnival' means joy, happiness, togetherness, celebration, shopping, music, dance, etc. So, how could our students miss this wonderful opportunity this year? Thus, we decided to celebrate learning with a bang this virtual school year. The theme of the carnival was based on Egypt, but we did not stop there. We had a lot of segments which had facts about senses, a pet Show, a Hindi quiz, a taste of Tamil, a games corner, scratch Junior, and lots more. Our Grade 1 learners were able to explore the Carnival in their own way. This celebration gave them the liveliness of physical school and togetherness of their friends. One of the best moments of the show was the cute thanksgiving video of the students to their beloved teachers. Everyone was awestruck by the students' love towards them. In return, we had a sweet goodbye surprise for the kids. It was truly an emotional and touching moment.

Ms. Kirtica C.R (Grade 1A) & Ms. Bhahini. D (Grade 1B)

The Dream Land

Grade 2 Culminating Event

"The future belongs to those who believe in the beauty of their dreams." ~ Eleanor Roosevelt

The Grade 2 students conducted a wonderful culminating event on the theme, "The Dreamland". The entire event was based on a script about a boy who meets a robot from the future. Together, the learnt about body parts and also visited Australia! They also met famous Australian personalities like Steve Irwin, the late wildlife expert and Nicole Kidman, a popular actress. The students were elegantly and gorgeously dressed in their costumes. However, the best thing that they wore was CONFIDENCE. The bone dance and classical dance added liveliness and charm to the show. Also, the concept of physical education was demonstrated well with the integration of the science topic, "Synapses". In such a short time, the students were able to put on a superb event. The last part of the time capsule brought forward the old memories of students and the school. It focused on the emotions of students who want to come to school and meet their friends and teachers. Indeed, we are all waiting for this dream which will be fulfilled on the 6th of April 2022.

Ms. Anam & Ms. Sankari, Grade 2 Educators

A Spark of Desire

Grade 3 Culminating Event

This theme for this term's culminating event for Grade 3 was "Desire". The intangible desire to explore and challenge the boundaries of what we know and where we have been has provided benefits to our society for centuries. Desire possesses power to change the world and shape a society. It is human nature to chase after our desires. History itself is a witness to how desire can shape a society. Desire great things in life, expect great things in life, and let your imagination take you where you want to be. The students of Grade 3 presented their overall learning by integrating all the subjects using different strategies and skills. A burning desire is basic to achieving anything beyond the ordinary.

Ms. Priya Nicholas, Grade 3 Educator

Art Integration

Nandika, Grade 5

Integrating subjects removes barriers between learning different subjects. It explains the connections between the subjects and real life. A real-life connection enhances the learning, makes it interesting and effective. Cooking art was integrated between the states of Tamil Nadu and Jammu & Kashmir. While preparing the dish, Mathematics and Science was integrated. Measuring the quantity and noting down the minerals as well as vitamins involved in the dessert that we prepared was done with the help of our parents. We presented our dishes to our Principal, Asma Ma'am, and to our Coordinator and teachers. All of this made it incredibly exciting and memorable
