Where learning has a purpose

Birthday banquet at Billabong High with the Choicest of Chinese Cuisine:

The Billabongers born in August celebrated their birthday in the august presence of their parents and teachers. To augment the festive mood, dining place was decorated with Chinese memorabilia replete with lanterns and oriental art. An elaborate Chinese menu gave that trademark touch to the theme at hand. From the classic fried rice & noodles to the exotic dragon chicken & momos, the food did not cease to amaze us and rightfully so, it was a momentous birthday celebration & a memorable culinary adventure.

Fossil Making

The Archaeologists are at work! The evolution of living organisms and extinction of Dinosaurs introduced the 4th graders to the concept of Fossils. They learned how fossils require right conditions to form and that it took many years to make. However they were in for a surprise as they discovered that fossils can be made with impressions of objects on wheat dough in a matter of minutes. The fossil making journey started with the children collecting the object they wanted to immortalize in the form of fossils from the school garden. Once obtained, they rolled dough into balls and flattened them to mimic a piece of land as they made impressions of the object on the dough. The dough with impressions was then let to dry in the sun forming fossils of their own.

TT champs in the training

Apart from physical development and improving hand to eye coordination, Table tennis thus develops fine motor skills. This fun game has become popular amongst the students as they have mastered the strokes and tricks through daily practice.

BHIS Debate Session

Billabong set the stage for the young minds to come forward and express themselves in a debate session, thereby shaping them into responsible young adults who can compete in model UN assemblies and inter school debate sessions in the years to come. Perhaps they are vying to be the future Kofi Annans!!

The week started on a positive note as the Media club Secretary Miss. Ananthithaa introduced the resolver and the topic for the debate. The Head boy resolved the resolution "Honesty is the best policy" as the 5th and 6th graders put forward their points in support and against the topic under discussion.

The program was an eventful one as it set the ball rolling for many more debates and elocutions.

Theory in Football

“All play and no work makes Jack n Jill a dull boy and girl”, says our sports Master. He therefore sets the mood for a theory class to learn the nuances of a good kick with football.

A Global Perspective through the eyes of the 1st graders

Sipping a cup of coffee and reading the newspaper early in the morning is no longer considered a father's or grandfather's favourite job. It has become a way of life for the first graders. They trot the world, flipping pages of 'The Hindu' and sharing their 'Views on News' that pertain to them.

Raksha Bandhan Celebrated With Great Fervor In Billabong High

To inculcate the bond of love between a brother and a sister, Raksha Bandhan was celebrated in Billabong. On this auspicious occasion, the Kindergarteners expressed their love for their friends. The girls tied Rakhi on their fellow peer's wrist and the boys gave them sweets as gift. It was indeed a blissful showcasing of emotions by the young children.
