*Where learning has a purpose*

## Unwinding with oodles of riddles:

Our Billabongers relished the opportunity of reproaching their teachers by a series of riddles riddled with innuendos. Knowing fully well that questions of academic nature would be answered accurately, they chose to astonish the teachers with some astounding questions like “What is heavy when it’s forward but not when it’s backward?” While some teachers retorted with creative answers others were left perplexed. Answering questions riddled with quibbles requires some muddled thinking which is an art by itself that has been perfected by a select few and some Billabong teachers adept at that, saved the day by being among those select few. All in all it was an enjoyable show of wit and wisdom.

## An update on an appropriate debate:

Should or shouldn't there be homework? We would say, a pertinent debate for our school students to have with parents and teachers as the audience. This very relevant debate was conducted in Hindi, enabling our students to sharpen their Hindi speaking skills. Pranjal of grade 6 moderated the debate with children of grade 4 speaking for the motion and grade 3 against the motion. Though the debate was directed by the Hindi teacher Ms. Kalpana to give the students some direction, it never failed to amaze everyone with its lively nature. At the end, the moderator succumbed to the notion of supporting homework albeit in moderation.

# Teachers' Day Celebration

In our country's culture, a teacher has been given a place above the almighty God. Teachers' Day is celebrated every year on 5th of September to honour and acknowledge the contribution made by countless numbers of teachers in helping and moulding the dreams of the young generation and in turn shaping the destiny of India. Keeping this in mind, the students of Billabong High International School Kelambakkam, organized a grand Teachers' Day celebration for their teachers.

The day began with a heart-warming e-message from the Chairman Mr. Yasir Nainar to all the teachers of the school. Here is an ODE TO THE TEACHERS -

**Earth rotates and revolves with forces unknown  
Such is the power of the TEACHER known  
Acts like a force within the child prone  
To achieve feats that were never known.**

After that followed a series of wishes by the students! They wished their teachers by presenting flowers and handmade greeting cards, the school was filled with glee and happiness.

As for the cultural highlights of the day the Hindi teacher, Ms. Kalpana sang a beautiful song which left everyone mesmerised. Then the teachers took turns to address the gathering sharing what instigated the teacher in them !

The students dedicated a beautiful cultural performance 'the very first street play by the Billabongers to their teachers and it was hugely appreciated by one and all. They featured how a teachers role in the life of a student is imperative right from historic ages.

The management of the school was very kind to appreciate the hard work of the teachers and they also surprised the teachers with lovely gifts. This day was made special by all the students and the management for the teachers for their sincere dedication and efforts.
