Where learning has a purpose

Birthday Banquet at BHIS-K with the Incredible Indian Cuisine:

The students and teachers born in December, January and February had a blast of a celebration at BHIS-K, an Indian blast at that! To augment the festive mood, dining place was decorated with Indian memorabilia replete with signature umbrellas and North Indian art. The air was filled with the appetising aroma of rice and spice. The olfactory senses unfailingly took us to the biriyani counter. The succulent kebabs with the spicy curry complemented the biriyani and set the stage for what was to come next. Yes it was the chat counter and it was ringing continuously owing to the crunchy papdi chat, blended bhel puri and warm vada pavs. The menu almost took us on a whirlwind tour of our country from down south to the north. Truly it was a memorable birthday celebration and an unforgettable gastronomic adventure.

Karate champions

Our Billabongers have yet again showcased their skills as they bagged the runners up overall championship in the Inter School State Level Karate Championship conducted at JVSS. This platform helped display the karate skills of our budding champs as they brought home laurels and a bunch of trophies in various categories. Kudos to our brave hearts!

Spreading beyond borders – IAID

International Academy of Intercultural Development (IAID) has now become a part of BHIS-K as it brings with it 17 years of exceptional experience in training children and adults in the field of performing arts. This academy with its track record of surpassing expectations by providing highly qualified individuals is now geared up to instigate the talents in our Billabongers.

Rajesh Jadhav the Managing Director of IAID, conducted a parent workshop on 23rd Feb, highlighting the programmes and courses offered by the organization. He gave an overview on the various prestigious organizations the academy was affiliated to and also provided a glimpse of the results that IAID promises to achieve in the days to come.

An authentic gateway to dance, art and music through the doors of BHIS-K.

RESIDENTIAL HIGHLIGHTS

Dancing Stars

This week, our resident Billabongers spent quality time grooving to the upbeat tunes of a few western numbers. Ably guided by our Dance instructor, the students gave meaning to the adage that "Dancing is like dreaming with your feet".

Mini gymnasium

The ninja worriers of Jr.KG were seen making their way through an obstacle course made exclusively for them by their PE instructor Mr.Kalaiarasan. This fun gymnasium was aimed at improving spatial awareness and kindling the coordination skills of our young minds.

Inventors walk the halls of BHIS-K

The great inventors from around the world decided to visit the children of BHIS-K and help enlighten the young minds about their contributions towards mankind. In tune with the value of the month - Inventions – the 4th graders had invited the great inventors to grace the weekly assembly and address their friends.

Revision is fun

Ever heard of the boring revision sessions right before examination? Well, our 6th graders are oblivious to such a thing because revision is absolute bliss for our 3 musketeers. Implementing technology into revision their English teacher was swift at giving them online mock tests and quizzes that they played, competing against each other. A fun way of revising topics indeed!

Researchers in action

The 4th graders are into some computer-aided research as they are determined to dig deep into the World Wide Web to know more about the everyday uses of light. Armed with a never give up spirit these young researchers were seen swapping between the library and computer lab collecting as much information as possible for their project. All the best children!!

Acronyms

As India is fighting for peace and harmony the 5th graders decided to hold the lantern high by creating acrostic poems on this very topic. This activity challenged the children to choose the right words to fit the letters best suiting the theme and hence torched their critical thinking skills.

Festivity of knowledge

KKEL bid farewell to a wonderful month in style as the Kangaroo kids took to stage to perform what they had learned in the month of February. A tribute was paid to dentists, firefighters, teachers and bakers for their tireless service as the nursery children dressed like them, sang a beautiful melody appreciating their efforts. Then followed the planets of our galaxy, who had decided to descend into BHIS-K. The Sr.KG students who were dressed up as the beautiful planets were brimming with facts to share among their peers. And then adding to this gala performance the Jr.KG children shared their knowledge on the giants who ruled the planet earth for centuries- 'The dinosaurs'.

'MIND MATTERS' – Readers Forum

Dear Reader,

'Experience is the best teacher', is what I deciphered from my life. I changed my daughter's school and I could find a visible difference in the personality trait of my child, chiselling into an independent personality ready to shoulder responsibility. Accolades to BHIS-K for its unique curriculum and SPA programme, endowed to create innovative thinkers, sports and rock stars, artists, managers and paramount in building leaders for tomorrow.

It's not about blowing my own trumpets, it's a factual truth.

My hands were itching to pen my thoughts for the 'Reader's Forum'. Fortunately, my article has been shortlisted to be the first. I am sure there are many who will follow suit!!!

Trying to figure out who could this be? Well, keep guessing!!

We will be back soon. Keep sending articles to the popular Cherries In-house Newsletter and keep us entertained.
