*Where learning has a purpose*

## HELLO JULY

The month of July was flagged off with a memorable event.

The Chief Educational Officer (CEO) invited all the Principals of Kanchipuram District to discuss details pertaining to DTCP approvals, Fire Safety measures, Disaster Management and Registration of Students into the Board's Portal.

We were happy to note that BHIS-Kelambakkam was compliant to all the norms stipulated by the Board of Secondary Education. The meeting was attended by the Principal Ms. Asma Nainar and Mrs. Chitra Ramachandran, Academic Coordinator. The CEO insisted that a **Mock Fire Drill** be conducted and educate the staff and students to handle the situation in case of any emergency.

## ***A PET IN THE SCHOOL!!!***

Imagine children walking into the classroom and calling up their friends, only to hear the chirping of the Love Birds, in reply to theirs. Their joy knew no bounds. For a moment the kids had a feeling of an outdoor classroom. To their surprise birds chirped louder and louder perhaps a way of greeting them in Happiness! Yes, this is exactly what the Nursery group experienced!! This month they will learn about Pet and Farm animals. A Moo-Moo here and a Moo-Moo there is what they will see next week..

# BILLABONG HIGH INTERNATIONAL SCHOOL

## Sense -Perception!!

Our junior class tiny-tots continue to amaze their teachers by their never -ending Whys? What's? And How's? In order to stimulate sensory perceptions further, they were literally given some FOOD for Thought. Pops!! And crackles!! Of the popcorn and the appetizing aroma of Cakes and Bakes were all-prevailing. Their taste buds reached far too wide in a CULINARY EXPERIENCE.

Ms.Asma was all set to display her skills in pastry and as is akin to her she is bent upon reaching the heart through the stomach be it a child or an adult.

## Caged Body Parts

How about visualizing our 'Billabong bambinos as Orthopaedicians?'

Sounds amazing isn't it!! Our kids were in for some bone setting experience. Fabricating; meticulously a model of the rib cage.

We believe our kids in the future will set right the 'brain drain' in our country, but before that don't they need to know what this brain is all about? Thus our children in G5 endeavored to unravel the intricacies of the human brain under the tutelage of their teacher. Multiple intelligence is a method in teaching & identifying the child's strength in understanding concepts. It was a mind-boggling experience for the kids to study their own minds.

## CHANGE IS OUR FAVOURITE COLOUR

We have constantly and consistently taken baby steps towards being a transformational brand. We now want to take a quantum leap! We have reimagined possibilities and raised the bar. So our change is not in our visual identity. You will experience the positive change in everything we do. Just as people and companies evolve, so do brands. We wanted our new identities to reflect why we exist and what we believe in. Kangaroo Kids is a place of adventurous learning and Billabong High School a place where students will find their purpose and meaning: their North Star. This marks a new chapter in our ongoing mission to 'ignite human greatness'

*We seem to have a few poet laureates cropping up in our school. The Star of the week Pratyush Singh of Grade 4 has written a few poetic rhymes that are rhythmic and rhyming.*

**UPCOMING EVENT**  
**SCHOOL INVESTITURE**  
**CEREMONY**  
**ON 13/07/18.**
