Christmas is here !!

Christmas is the festival that inspires the spirit of sharing and caring. Soaking in the spirit of Christmas, the tiny tots of Kangaroo Kids celebrated the festival with enthusiasm.

The school was beautifully decorated and everybody was dressed in red and white. The students sang melodious carols and danced beautifully to the Christmas songs. The surprise element of the show was the hidden Santa. He came out from a box and gave chocolates to the children and danced gracefully with the children and teachers. The boundless joy of celebrating the festival was visible on the faces of all the children.

Christmas @ BHIS-K

The joy of winter and the festive season of December was celebrated with much zest at Billabong High International School Kelambakkam this Friday. The students from across grades came together to perform a Musical dance-drama that showcased the true significance behind the festive season. The Christmas carols and the dance performance complimented the beautiful script. Santa Claus's appearance laden with chocolates was the highlight of the show! The right tone to start the winter holidays was indeed set.

Becoming Authors !!

As a part of extending their learning, the 4th graders penned a book on "Magnets". They intertwined their art skills and creativity as they decorated the book and filled in all the knowledge that they gained during learning the topic of Electricity and Magnetism.

Humans vs. Robots

The very 1st Oxfordian style of debating was set in motion at BHIS-K by Mr. Amaar Nainar. The students of Grade 6 and above were active participants in the debate that housed the topic - "Can Robots replace humans?". The opposition and proposition team were judged and the best team and speakers were announced by our panel of Judges. Vibhav of Grade 6, Tejaasvin of Grade 7 and Saurav of Grade 6 were recognized for their efforts in defending their stance. The interactive discussion on the areas of improvement and the opinions on their take of the topic amongst the audience was a key moment of the event.

An Act of Kindness

The students of BHIS-K slid down the chimney of 'Sadhana School for Hearing Impaired/ Mentally Retarded' laden with gifts and goodies spreading joy amongst the children at the school. It was a heartwarming sight to see the happiness within the gifted children on receiving goodwill from our Billabongers. This helped our students in understanding the value of all that they have in life and it indeed was beautiful to see the compassion within them as they danced and sang along with the students of Sadhana school.

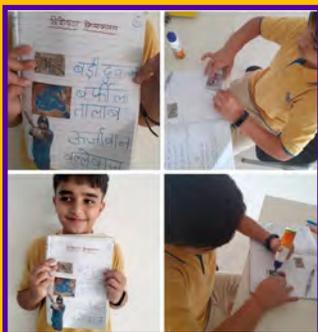

Cubs and Bulbuls

Mr. B. Anil Jose Kumar our Admin Officer took part in the Barath Scouts and guides training session held by Zion International Public school, Meppadu, Selaiyur last week. The training session highlighted the features of the cubs and bulbuls programme and how to implement the same in our school.

समचार पत्र का प्रयोग विशेषण क्रियाकलाप के लिए

हमारे छात्र हर सुबह समाचार पत्र पढ़कर अपने ज्ञान की वृद्धि करते हैं और इसी समाचार पत्र द्वारा छात्र ने अपने विशेषण ज्ञान को भी बढ़ाया।

विशेषण अभ्यास के लिए तथा अपने भाषा ज्ञान में वृद्धि करने के लिए समाचार पत्र का प्रयोग क्रियाकलाप में किया गया। छात्र ने अपनी क्रियात्मकता का परिचय देते हुए इस क्रियाकलाप को करने में बहुत रुचि दिखाई।

Health is Wealth

Residential students along with our Residential manager Mr. Jilson George visited Musculix Fitness Gym in Tiruporur to learn the nuances behind maintaining a healthy body. Mr. Mohammed Rafiq S explained how being fit was beyond just being fit physically but it was about being fit mentally as well. The techniques on how to use the types of equipment were also highlighted by Mr. Mohameed Rafiq.

Nature Stride

The children of grade 7 had an overview of nature as they were introduced to the topic of natural vegetation and wildlife. Technology works for gathering information, but the feel of nature is a unique experience that encourages the children to analyse the factors required for the growth of the natural vegetation.

Let's go outside

The availability of abundant fresh air makes the brain rejuvenated and encourages the children to focus. An attempt was made to help the 5th graders experience learning in nature. The children accompanied by the teacher learned something new in a calm and serene environment. This attempt was very fruitful as they responded appropriately in the post-learning session.

Social Corner

The 5th graders made an all exclusive social corner in their classroom by putting up collages related to the various topics learned during the Volume.

Introduction to Congruency

'The congruence between our beliefs and actions is what brings about inner peace'

Last week our seventh graders had a hands-on introduction to the concept of congruence. An interesting discussion ensued when the students were presented with images that looked alike but were of different sizes. The concept of similarity in geometrical figures and by extension 'Congruence' was dealt in depth with a cut-out activity. As the learners comprehended the concept and extended it to test congruency of the triangles, the growth mindset of the students gained momentum.
