Where learning has a purpose

BACKPACKING JOURNEY

A backpack is an essential item — everything from being a practical means of toting important belongings, to being a decorated reflection of the student’s personality and a symbol of their self-reliance.

Heavy loads, though, and improperly fitted backpacks can lead to back pain and even injuries. The teachers of BHIS-K were determined to ensure that the students were aware of a few safety basics when it comes to strapping on that pack. An exclusive “how to carry your backpack” session was carried out where the PE teachers gave a live demonstration on the best way to carry their school bags. This session was well received by the students as they were seen to implement it the very next minute. Goodbye back pain and sore shoulders!!

HEALTH IS WEALTH

Our in-house nutritionist was seen having an interactive session with the senior kindergarten students of Kangaroo kids. Ms. Preetha was guiding them through the nutritious rich food and the junk food available around them and she stressed upon how their food choices had a great effect on their life style. A right start towards healthy living, isn't it?

आओ बनाएं पर्यायवाची को रोचक

परीक्षा हमेशा लिखित नहीं होती है, इसे रोचक भी बनाया जा सकता है।

कक्षा 5 के छात्रों ने अपनी रचनात्मक क्षमता का प्रयोग करते हुए व्याकरण ज्ञान का

परिक्षण दिया | कक्षा में पढ़ाए गए पर्यायवाची शब्दों की परीक्षा रोचक कार्यकलाप

के रूप में ली गई | छात्रों ने बड़े उत्साह के साथ, अपनी स्मरण शक्ति एवं सर्जनशीलता

का परिचय दिया। इस कक्षा परिक्षण से छात्रों की रचनात्मक शक्ति का विकास हुआ |

அமுதல் ஈவரை எழுத்துக்களை அறிதல்.

Grade 1 மாணவர்கள் உயிர் எழுத்துகளில் முதல் நான்கு எழுத்துகளான அ, ஆ, இ, ஈ என்ற எழுத்துகளை காற்றால் அடைக்கப்பட்ட பலூனில் ஆசிரியர் எழுதினதை ஒவ்வொரு மாணவர்களாக தேர்ந்தெடுத்தல். பின்னர் அவ்வெழுத்துகளுக்கு ஏற்றவாறு குழுவாகப் பிரிந்து நின்றனர். மாணவர்கள் எழுத்துகளின் வடிவங்களையும், உச்சரிப்பையும் ஆசிரியர் உதவியுடன் அறிந்தனர். மாணவர்கள் விளையாட்டின் மூலம் கற்றல் நிகழ்கின்றது.

A home away from home

Our residential scholars were blessed to have an interactive and inspirational talk by Mr. R. Vijaya Krishna and Mrs. Prasanna.V, the parents of Master Satvik V of grade 8 IG and Master Radhakrishnan.V of Grade 3 on 31st of August. After a luscious dinner Mr.Vijay Krishna spoke about the progress seen in the tech world and how its benefits can be reaped by the appropriate and controlled use of technology. Mrs. Prasanna V being a Mathematician, gave inputs on the subject and shared some tricks in tackling common roadblocks towards solving problems.

Friday evening was a treat for the residential scholars as they got to munch on some popcorn and watch the magnificent film of King Mufasa and his son Simba !! Watching Lion King along with their buddies was absolutely a delightful experience.

Creating Mozarts

Our Music teacher Mr.Paul Dawson traveled beyond borders and had an international training session in vocals and instrumental music at IAID, Doha Qatar. Ms.Hazel from IAID had trained Mr.Paul following which he had an interactive session with the Coordinator Ms.Marianne. Now he is all geared up to train our students for the course offered by London College of Music in Vocal and Instrumental music. This course will consist of various levels and the first two levels shall be offered by the school exclusively to its students from grade 3 and above. At the end of each level that lasts for 6 to 8 months, the faculty from LCM will fly down to our school to access our students. A treaty with world class music indeed!

Here are our 4th graders learning American Line dance from our professional line dancer Ms.Kailin.

Math in our daily life

The 3rd graders were enthusiastic in decoding how tall their peers were, through a fun activity in measurements. Without a measuring tape and armed with just a roll of yarn and scale, the students set out to find the height of their friends. This fun session helped them understand measurement through comparison. A lesson in geometry and spatial measurement followed this, where the students made triangular bowls using coloured square papers. It was a quirky activity as they ended up with something triangular from something square, not to forget- a triangular 'bowl'. Geometry is indeed mysterious.

Rules and Technology

Following rules online and offline is of utmost importance and our 3rd graders were determined to set the rules right. As a part of their ICT class, the students made creative posters on "Internet safety tips to be followed by every child" and "Rules to be followed in real world". Once done the posters were put up in class so that it would be a constant reminder to follow the right path!

Sentences anyone?

Ms.Kailin was busy felicitating the concepts of sentences and its types to our 2nd graders through a fun filled session. By the end of the lesson the students were observed to be identifying and labeling different sentences to its corresponding types.

Kind is the new cool

“ I would rather be a little nobody, then to be an evil somebody” - Abraham Lincoln

Not all forms of abuse leave physical bruises and bullying is one of them. Our Fourth Graders comprehended this fact with an anti-bullying awareness session in their Value education session. During the session, the teacher stressed upon a variety of topic including the difference between teasing and bullying, various kinds of bullying, the places and situations in which bullying may take place. Students were also told about the effects that bullying could have on a person. The session culminated with a poster making on the theme. As their artistic creativity spilled on the charts, the young learners pledged to be conscious of their actions and words and vowed to respect and accept each other.

What's cooking?

The school is filled with the mouthwatering aroma of delicious and nutritious dishes during the lunch and break periods. Here is a sneak peek of the menu being offered by the skilled chefs of the school. We have millet bournvita crunchers, baked omelet, banana nut pie, ragi chocolate cookies, puffy pastries and so on. Healthy and delicious all at once, completely in tune with our core value 'Health'. If your ward hasn't availed the school lunch programme, then it's time to give your child an everyday enchanting experience with food.

Achievement!!

Tharun of grade 6 was recognized as the School Champion in the MindWARS quiz programme offered by Zee TV for the month of June 2019. This budding explorer is surely filled with umpteen general knowledge.

MIND MATTERS– Reader’s Forum

My son Pratyush who is currently in Grade 5, had joined BHIS-K in 2018. Within this short span of a year, I have witnessed an all-round progress in my child. And this constant development in my son has helped gain a positive impression on BHIS-K within me. I also appreciate the fact that the teachers duly use their experience and commitment towards ensuring the progress and all-round development of students in the school.

It touches my heart for the emphasis given by the school on discipline, punctuality, character building and moral values which is today’s need for humanity. Also the behavior and cooperation of teaching and non-teaching staff are highly appreciated.

Due to their intensive dedication towards providing quality education, the school is gradually heading towards becoming a world-class education center.

I thank and congratulate all the respected teachers for providing quality education to our children.

Finally, in my view, all efforts are possible only due to the leadership and guidance of our respected Chairperson, Mr.Yasir Nainar and Principal Maam, Ms. Asma Nainar. I heartily thank and congratulate them with lots of compliments and best wishes.

-Ms.Priya Singh Ruhela

Talent Spotted!!

Tivona of Grade 6 is an exceptional artist who recreates entrancing sketches and art work that receives a lot of applause from her peers and teachers. Here are some of her work!
