## Show me Five

Ms.Shahana(Nursery Educator)

Our Nursery students had a special day of "Show me Five" this week. They showed their friends their top five favourite things. They also created aeroplanes out of ice cream sticks. They pedalled bicycles and did animal walks as a part of their gross motor skills.

# A Theme of Festivals and Celebration

Ms. Sivaranjani. S (Jr.KG Educator)

The festive season brings joy, laughter and fun to our life. As our little ones have learnt about many festivals and celebrations this month, they have represented their learning through a show and tell activity. It was a treat for the eyes to watch our lovely students dressed up to represent different festivals. The students also spoke a few lines about the festivals.

## Time to Honour BHIS-K

Ms. Deepa (Culture Custodian)

“Today a reader, tomorrow a leader” ~ Margaret Fuller

BHIS-K is in collaborative work with the Times Group, News in Education, to bring in the latest news updates from around the world to the students. This includes conducting activities and competitions to add fuel to the curiosity of our Billabongers!

The Times Group, General Manager, Chennai, Mr. Nagarajan, presented our school Principal, Ms. Asma Nainar with a coffee table book titled, ‘A Cavalcade of Cartoons’ on completion of the Times Group’s, glorious 175 years in the industry of news and media.

Our Principal, Ms. Asma Nainar was overwhelmed by the coffee table book’s archives of cartoons that portray the trials and travails, the triumphs and the zest for life that make up the ‘never say – die’ spirit of India.

# An Effective Learning of Science

Shampratha (Grade 6, CBSE)

Learning Science has been always fascinating for me and my friends as we learn about the creations of our planet. Experimenting and analyzing new things always kindles our curiosity not only through experiments but also through presentations. As we were learning about the reproduction on living things, we prepared a digital presentation with animation on the topic. An interesting fact here was that we ourselves evaluated our friend's presentation, which motivated us to do the presentation. It was an effective and innovative session.

# Our Wonderful World - Show and Tell

Ms. Devi. S(Kindergarten Educator)

Show and tell helps foster public speaking skills and helps children feel comfortable talking in front of a group of peers. It gives children an opportunity to stand up in front of their friends and speak about a topic that interests them or share something they love. It builds confidence and helps children develop their communication skills. The theme for the show and tell for our senior KG students was 'Countries Around the World'. They spoke with the help of props and pictures. All students shared information very confidently, and it was a complete recall of the concepts they learned in the last three months.
