How are you feeling?

Ms. Ayesha (Jr. KG Educator)

There are seven basic emotions: joy, surprise, fear, disgust, anger, contempt, and sadness. Our Junior KG students are learning all about themselves as a part of this concept. This week, we discussed and shared things about different emotions which we face in our day-to-day life. We also enjoyed doing paper plate craft feelings emojis.

Fraction Bird

Ms. Priya Nicholas (Grade 3B)

Integrating art with mathematics provides an engaging and effective way to achieve standards and always fun to learn the concept with ease. Our learners of Grade 3 were engaged with an art integrated session through the topic - Fraction Bird. Fractions can be a challenge to teach. That is why it is important to have a hands-on activity to help kids learn this tricky concept. This fraction bird was a fun way of learning the parts of a whole. Our learners enthusiastically participated in an activity and created colorful fraction birds.

Save Water

Koushika, Grade 6

Earth is the only known planet in this universe where life is possible only because of the availability of water and oxygen. Water is the most important necessity of life for all the living beings on earth. Without water, no one can exist even for a day. We also know that there is a very less percentage of clean or drinking water available on the earth. So, we should not waste clean water but rather save it for future generations. We should bring change and spread awareness among people about the importance of clean water. We should promote the less usage of and saving of clean water to maintain the continuity of life on the earth. We Grade 6 students, being the future generation, created awareness by writing slogans on the importance of water and to save water.

कला समेकित गतिविधि

Ms. Kalpana Kumari (Hindi Educator, Activities Coordinator – BHISK)

कक्षा 6 के छात्रों ने "क्रिया" की परिभाषा और उसके भेद को सीखने के उद्देश्य से कक्षा में कला समेकित गतिविधि की। छात्रों ने क्रिया के भेद को स्पष्ट रूप से सीखने के लिए वाक्य रचना भी की। शिक्षण प्रक्रिया को छात्रों के लिए रुचिकर बनाने के उद्देश्य तथा सीखने के प्रतिफल को केंद्रित करते हुए यह गतिविधि करवाई गई।

ART CORNER

Grade 1: Elements Art

The students of Grade 1 explored and demonstrated visual elements such as lines, shapes, colours, values and patterns this week.
