ARE YOU A BLOGGER...?

Ms. Saradha Gopi (Grade 4 ICT Educator)

It is in, many ways, writing aloud!

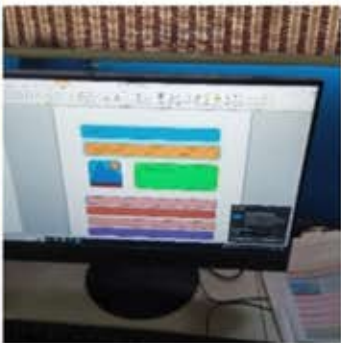

There was a time when most of us use to pen down our thoughts and save it on a diary... Nowadays, it's much easier using technology.

Yes, BLOG... using our technology (Internet) we can become bloggers; it creates a creative side of a person.

Grade 4 learners, as part of their practical activities made a template of a blog. They were all excited, when asked to make their own template and write up on an image given to them. The result was astonishing. "One image and many imaginations".

Their level of creativity was commendable.

#2

PICK UP A BOOK

Ms. Aparna (Primary English Educator)

Quoting the award-winning author and former head of National Centre for Children's Literature Paro Anand's words, " It is the cognition, empathy, emotional maturity, critical thinking that a child shows when they read for pleasure.", Ms. Nahla Nainar dwells into the significance of reading among young children. The columnist goes on to explain how the stories stand the test of time in a world shaped by technology and Artificial Intelligence in her article, 'Pick up a book'.

Going back in our memory lane, I would like to remind you all how BHIS-K celebrated the month of June and July as the 'Reading Month' bringing together various activities like reading circle, readathon, reading campaign, book presentation, enacting stories, and even dressing up as authors and events to celebrate the joy of reading. Let us make sure to bring on this reading culture popular amongst the younger generation which will turn them into lifelong learners.

प्राकृतिक चीज़े और मनुष्य द्वारा बनाई गई चीज़ों में अंतर मनुष्य द्वारा बनाई गई चीज़े

Ms. Ankita Saha (Grade 4 Hindi Educator)

प्रकृति और मनुष्य के बीच बहुत गहरा संबंध है। दोनों एक दूसरे के पूरक हैं। मनुष्य के लिए धरती उसके घर का आँगन, आसमान छत, सूर्य-चांद-तारे दीपक, सागर-नदी पानी के मटके और पेड़-पौधे आहार के साधन हैं। इतना ही नहीं मनुष्य के लिए प्रकृति से अच्छा कोई गुरु नहीं है। आज तक मनुष्य ने जो कुछ हासिल किया वह सब प्रकृति से सीखकर ही किया है। दुनिया में ऐसी कई चीज़े हैं जो हमें प्रकृति से मिली हैं और कई ऐसी चीज़े भी हैं जिन्हें मनुष्य ने बनाया है। प्रकृति से हम जो वस्तुएं प्राप्त होती हैं उन्हें हम प्राकृतिक वस्तुएं कहते हैं, जैसे-पहाड़, नदियाँ, समुद्र, वायु आदि। जो वस्तुएं मनुष्य द्वारा निर्मित की जाती हैं, उन्हें मानव निर्मित वस्तुएं कहते हैं, जैसे- वस्त्र, मकान, मशीन, आदि। इस गतिविधि के द्वारा छात्र प्राकृतिक और मनुष्य द्वारा बनाई गई चीज़ों में अंतर को समझेंगे, चीज़ों के हिन्दी नाम को जानेंगे और शब्दभंडार में नए शब्दों को जोड़ेंगे। इस गतिविधि में छात्रों ने मनुष्य द्वारा बनाई गई दस चीज़ों के नाम लिखे, किन्हीं दो वस्तुओं के चित्र बनाए और उनमें रंग भरे।

THE LONELY GHOST

Sarveshwaran P (Grade 8 Student)

It was a dark day. There were humid shadows all over the sky releasing streaks of lightning but no thunder. We were playing cricket passionately. It was the championship; the bowler threw the ball with a spin but the batsman hit an unexpected six which was close to the end of the game. The ball soared through the sky and finally landed into a house that looked like a serial killer's house. The house was mostly known as the scariest house in the neighbourhood. Many brave people went inside but were never heard of ever again. We, the fantastic four went inside holding hands to make sure no one gets lost or possessed. It was dark and scary. We saw a broken chair that was half burnt in the dining hall. One of my friends spotted the ball and ran into one of the rooms. We suddenly heard a crash and I shrieked like anything

CELEBRATIONS

KINDERGARTEN-CHILDREN'S DAY

Ms. Sivaranjani (Kindergarten Educator)

"The children of today will make the India of tomorrow. The way we bring them up will determine the future of the country" Shri. Jawaharlal Nehru.

To celebrate the innocence and purity of kids and to make them feel their precious childhood, our kindergarten team organized various activities. The celebration began with the morning prayer, followed by an informative session about our first prime minister Jawaharlal Nehru and his affection for the children. The day proceeded further with fun-filled activities like dancing, story watching, craft making, singing songs, playing indoor games. The teachers made the day even more special by encouraging them to make handmade colourful and elegant flower crafts. The tiny tots were overwhelmed to have their precious crafts and enjoyed the day with great joy and bliss.

KINDERGARTEN-DIWALI CELEBRATION

Ms. Devi S (Kindergarten Educator)

"Diwali is a delightful and sacred celebration. It is a period when the land is illuminated by absolute wonder and splendour, and people everywhere are dazzled by joy and celebration. Our Kindergarten students celebrated this festival at school as a way to show the value of spreading light over darkness. Children dressed up in festive attire and made diyas and lanterns out of reusable items such as paper cups and paper plates. Our tiny tots discovered that victory may be won in a variety of ways, including spreading joy, love, compassion, and togetherness.

PIC-COLLAGE

DIWALI AND CHILDREN'S DAY CELEBRATION 2023

Ms. Saradha Gopi (Primary Educator)

Deepavali Or Diwali means 'Rows of Lamps'. To show light is more powerful than darkness and good is more powerful than evil. It marks a new beginning.

Children are a ray of hope, of our future...! Nurture them with good deeds and provide them a healthy environment to live.

It was a day of celebration at our school, Diwali and Children's Day was celebrated together today, creating a festive and exciting atmosphere ... The festival of lights and the festival of Children's right, education and their wellbeing were focussed today.

It was a fantastic show put up by the educators, to entertain the students who were our special guest.

The educators took this opportunity to entertain the young minds with refreshing rhymes, beautiful melody and a rocking dance. The art educator made a beautiful piece of art from the scribblings of the students on a paper. The importance of this day was emphasized amongst our young minds by our principal. It was nostalgic ... It brought back the childhood memories of every adult present there.

There were various activities happening in all the grades, some of them making Diya's, few making paper crafts related to the festival of lights. This day will remain special in all our hearts.
